

Pennville Custom Cabinetry was built on a strong foundation that has helped us endure the test of time. These core values have allowed the Pennville team to remain focused for over 50 years.

- 1) Never compromise on materials or construction techniques. Instead, educate all of our stakeholders, so they understand the benefits of extraordinary woodworking.
- 2) Share the comfort of small town kindness while conveying our professionalism, progressive design, and uncompromising quality.
- 3) Allow our customers the security of having their orders checked by a highly skilled, intelligent and cooperative group that is as good with their hearts as they are with their hands and minds.
- 4) Create customer satisfaction with easy to order handcrafted, unique cabinetry that installs beautifully and will last for generations.
- 5) While using wood, our greatest renewable natural resource, leave as small a footprint on our environment as possible for a better world for our children and grandchildren.
